Land Degradation and Society is essential reading for all students of geography, agriculture, social sciences, development studies and related subjects. Land Degradation and Society - 1st Edition - Piers Blaikie ... Approaches to the study of land degradation Perhaps the most common such hypothesis is that which attributes degradation to pressure of population on resources (which we shall henceforth call PPR), and therefore to growth in the numbers and density of population on the face of the earth. Land Degradation and Society - Taylor & Francis Group Land degradation and desertification, largely due to deforestation and unsustainable land use, are amongst the most pressing problems facing the world today. Land Degradation | Global Environment Facility Land degradation definition: refers to human practices and technologies that extract or degrade the land's resources faster than they can be replenished and thus fail to ensure the long-term sustainability of the land. LAND DEGRADATION CAUSES, IMPACT, EFFECTS, FACTS, DEFINITION Land degradation is a process in which the value of the biophysical environment is affected by a combination of human-induced processes acting upon the land. It is viewed as any change or disturbance to the land perceived to be deleterious or undesirable. Natural hazards are excluded as a cause; however human activities can indirectly affect phenomena such as floods and bush fires. This is considered to be an important topic of the 21st century due to the implications land degradation has upon a Land

degradation - Wikipedia Land Degradation & Development Edited By: Chris Barrow, Martin Brandt, Jan Frouz, Vanessa Wong, Yakov Kuzyakov, Gerardo Ojeda and Jan Nyssen Impact factor: 3.775 Land Degradation & Development Land Degradation And Society book.
