Riverboat Simulator Activity Sheet
Answers The purpose of this activity is to analyze the relationship between the two vector components of motion for a river boat as it travels across a river in the presence of a current.

Procedure and Questions: 1.

Navigate to the Riverboat Simulator page and experiment with the on-screen buttons in order to gain familiarity with the control of the animation. The width of the river, speed of the river, speed of the boat, and direction (or heading) of the boat can be modified. The simulation animates the motion of a coaster car along the track designs and about any stage of a learning cycle in a work-energy unit or a

circular motion unit. Physics Classroom Uniform Circular Motion Simulation Answers Riverboat Simulator The Riverboat Simulator Interactive allows a learner to investigate the effect of a river current, river width, and boat velocity upon the time to cross a river and the arrival location on the opposite bank. Learners can easily modify boat heading and speed and river width and run numerous trials in a short amount of time ... Physics Simulation: Riverboat Simulator The Riverboat Simulator Interactive is shown in the iFrame below. There is a small hot spot in the top-left corner. Clicking/tapping the hot spot opens the Interactive in full-screen mode. Use the Escape key on a keyboard (or comparable method) to exit from full-screen

mode. There is a second hot-spot in the lower-right corner of the iFrame. Physics Simulation: Riverboat Simulator Topics Covered: Cell Cycle, Interphase, Mitosis, Cytokinesis, Chromatin, Chromosomes, Role of the cell cycle in growth and healing. This is a short interactive useful for helping students understand the basics of the cell cycle and how one cell divides to form two genetically identical daughter cells. Mitosis Mover! A Cell Cycle Interactive The Physics Classroom serves students, teachers and classrooms by providing classroom-ready resources that utilize an easy-to-understand language that makes learning interactive and multi-dimensional. Written by teachers for teachers and students, The

Physics Classroom provides a wealth of resources that meets the varied needs of both students and teachers. Swift River is one way to expand clinical experiences when clinical space is scarce and students may not be able to work with some patient populations.

Swift River also provides a great alternative, and a way to craft experiences students need. The scenarios are based on real-life situations and are accurate and evidence based. Swift River | Virtual Clinicals Riverboat Simulator lets students investigate the motion of a boat across a river against a current. An Activity Sheet is included. The activity links to information on relative velocity principles and riverboat problems. Multimedia Studios is a library of animations visualizing concepts in physics.
